

A NIGHT FOR JESSICA

Jessica Wood, a lifelong East Meadow resident, is a fighter. Diagnosed with Stage 3 Cervical Cancer in 2016 at the age of only 28, Jessie is determined to battle this disease. Since then, the cancer progressed to Stage 4 and medical costs have become increasingly hard for her and her family to afford. Some of the treatments she needs are

not covered by insurance as this two year battle carries on. We ask for your help as we come together as a community to support Jessie in her brave fight.
